Tipi di cavo--------------------(2014)
Satelliti----------------------(2015,2016,2018,2019,2020,2021,2023)
TDM Multiplexing---------------(2016)
QPSK--------------------------(2015)
QAM--------------------------(2019,2020,2022,2023)
Modulazione delta--------------(2016,2017,2018,2019,2020,2022)
CDMA-------------------------(2016,2018)
Bit o Byte stuffing------------(2017,2018,2019,2020,2022,2023)
Go back n---------------------(2015,2020)
Selective repeat---------------(2022)
Aloha-------------------------(2014,2017,2018,2019,2021,2023)
CSMA--------------------------(2017,2018,2020)
CSMA non persistent------------(2022)
Protocolli a contesa limitata, adaptive tree walk protocol-------(2015,2018)
Stazione nascosta---------------(2019,2020)
Codifica Manchester-------------(2014,2018,2019,2020,2022)
Flooding-----------------------(2015,2016,2018,2020,2023)
Distance Vector routing---------(2014,2019,2020)
Link State routing--------------(2018,2021,2022,2023)
Quality of Service (QOS)--------(2014,2020,2023)
Choke packet-------------------(2016,2018,2019,2021,2022,2023)
Load shedding------------------(2014)
Leaky bucket-------------------(2015)
Token bucket-------------------(2016,2018,2019,2020,2021)
CIDR--------------------------(2014,2015,2016,2017,2018,2019,2022)
NAT---------------------------(2015,2018,2019,2022,2023)
ARP---------------------------(2014,2017,2018,2019,2020,2022,2023)
ICMP--------------------------(2014,2015,2022)
IPv6--------------------------(2016,2020)
UDP---------------------------(2014,2016,2017,2018,2020,2022,2023)
TCP, Handshaking----------------(2016)
handoff(2023)
Attacchi ciphertext-only--------(2019,2020)
Sostituzione monoalfabetica-----(2019)
Cifrari a trasposizione---------(2014,2015,2020)
One-time pad (blocco monouso)---(2015,2016,2018,2020)
DES e triplo DES----------------(2016,2018,2020,2021,2022,2023)
ECB----------------------------(2014)
Counter mode cipher-------------(2016)
Stream cipher------------------(2015,2016,2018,2019,2020,2023)
Hash crittografici, HMAC--------(2016,2018,2019)
Modi di attaccare DNS-----------(2018)
802.11-------------------------(2015)
IPSec--------------------------(2019,2020,2022)
